Greetings to Research Resource Colleagues!

This issue of Research Resources highlights the topic of Knowledge Translation. In the Foundation's current Strategic Plan, one of our Strategic Objectives is to "Facilitate effective dissemination and translation of research-based knowledge to support people's full participation in meaningful life activities and quality of life". Knowledge translation occurs on a continuum. The Foundation supports the generation of research data that cumulatively provides the evidence needed to change/improve OT practice. The process of translation itself is complicated and involves many stakeholders. We hope our efforts allow a better connection between researchers and practitioners, and by so doing we hope we expedite the current unacceptably long timeframe to bring about change/improvements to clinical care.

The AOTA Conference in Salt Lake City is fast upon us. The Foundation is presenting a workshop entitled "Knowledge Translation: Moving Evidence from Research to the Clinic - Real World Examples" (WS 113. Thursday, April 19, 2018, 12:00 noon - 3:00 p.m. Salt Palace 255 AB). This workshop is included in conference registration. We hope to see you there.

Cheers.

Scott E. Campbell, PhD
CEO
Resources for Knowledge Translation

Resources on the AOTF website

Pathfinders (guides to information sources on specific topics often researched by occupational therapists) can be found on the AOTF website.

Find resources on: diabetes, low vision, MS, productive aging, and obesity, and more.

Publications

Community-Based Health Literacy Interventions: Proceedings of a Workshop

The Roundtable on Health Literacy hosted a one-day public workshop on a range of community-based health literacy interventions that currently exist, research related to community-based health literacy interventions, and best practices in community-based health literacy interventions.

Join AOTF for our sessions at the AOTA Annual Conference, April 19-22, 2018 in Salt Lake City.
(and visit our booth for a chance to win an iPad!!)

AOTF Breakfast with a Scholar – Molly McCully Brown
Friday, April 20, 7:00 a.m. - 9:00 a.m.

Molly McCully Brown, MFA, will speak on Something's Wrong With Me: How Shifting Language(s) of Disability Shape Selfhood. Ms. Brown will examine how the ways we talk about and around disability influence the development of self-conception. Ms. Brown, author of the haunting book of poems, The Virginia State Colony for Epileptics and Feebleminded, immersed herself in the women long denied a voice – the patients and those who witnessed or inflicted agony on others.

$60 per person, includes breakfast. CE

AOTF State of the Science Symposium

Functional Cognition: The OT Lens on Occupational Performance
Friday, April 20, 2:00 p.m. to 4:30 p.m

This year, the SoS will focus on functional cognition, the ability to use and integrate thinking and processing skills to accomplish a complex and essential IADLs. The speakers will address our current knowledge, opportunities for research, and the role of occupational therapy in assessing and modifying function cognition.

Overview
M. Carolyn Baum, PhD, OTR/L, FAOTA, Washington University School of Medicine

Traumatic Brain Injury (TBI)
Deirdre Rose Dawson, PhD, OT Reg (Ont), University of Toronto and the Rotman Research Institute

Cancer
Robin Newman, OTD, OTR/L, CLT, Boston University

Aging/MCI/Alzheimer’s Disease
Juleen Radokowski, OTD, MS, OTR/L, University of Pittsburgh

Stroke
Timothy J. Wolf, OTD, PhD, OTR/L, FAOTA, University of Missouri

$35 per person, includes light refreshments. CE
SC 127  Technology and Manuscript Preparation: A Powerful Must

The editorial board of OTJR: Occupation, Participation, and Health will show participants how to write clearer and more rigorous manuscripts while saving time and resources using ready-to-use technological platforms and readily available technology tools.

Sherrilene Classen, PhD, OTR/L, FAOTA, FGSA, University of Florida, Liliana Alvarez, PhD, Melissa Knott, MSC (OT), OT Reg (ONT), CCLCP, Sarah Krasnium, MSc, all of the University of Western Ontario, Stephen Page, PhD, OTR/L, FAHA, FACRM, FAOTA, The Ohio State University, and Jessica Kipowski, Sage Publishing.

Thursday, April 19. 10:00 a.m. to 11:30 a.m. Salt Palace 260 Included in conference registration.

WS 113  Knowledge Translation: Moving Evidence from Research to the Clinic – Real World Examples

Evidence-based practice is integral to occupational therapy clinical practice. Yet, the ability to actually implement evidence-based programming into occupational therapy practice remains very challenging. Knowledge translation, the ability to move evidence from research to the clinic, is complex and multidimensional. It requires clinicians to be able to identify the best evidence, and then be able to circumnavigate individual, contextual, and system level challenges to implement that evidence. Few occupational therapists are aware of these complexities, or have seen successful evidence implementation. In this workshop we will provide participants with information about theories of best practices in knowledge translation. We will then invite stakeholders who have successfully implemented best practices to share their stories of knowledge translation, providing attendees with real life examples of the challenges and solutions they used to implement evidence-based practice.

Nancy Baker, ScD, MPH, OTR/L, Anthony Delitto, PhD, PT, FAPTA, and Pamela E. Toto, PhD, OTR/L, BCG, FAOTA of the University of Pittsburgh, Felicia Hill-Briggs, PhD, ABPP of the American Diabetes Association and the Johns Hopkins Institute for Clinical and Translational Research (ICTR), and Cheryl Miller-Scott, DrOT, OTR/L of Encompass Health will run the workshop.

Thursday, April 19. 12:00 p.m. to 3:00 p.m. Salt Palace 255 AB Included in conference registration.

For AOTA Annual Conference registration and housing information.

Doctoral, Postdoctoral, and Research Training Opportunities

Rehabilitation Science (RSD) PhD Program – University of Florida

This research is funded through a grant from HUD to develop new technologies for affordably retrofitting existing housing for people with disabilities. The project will culminate in the team using their research to redesign homes and digitize the designs in virtual reality with haptic simulations. This fully-funded PhD student will complete the didactic component via taking classes in the RSD program, while the research component will be completed under the supervision of Dr. Sherrilene Classen and Dr. Linda Struckmeyer (contact them for more information).

Postdoctoral Fellowship in Heath Services R&D Center of Innovation on Disability and Rehabilitation (CINDRR)

The purpose of this 2-year fellowship is to develop a cadre of scientists with health services expertise for the VA healthcare system and to foster the development of high quality health services research and development at local and national levels. The fellowship is located at the HSR&D Center of Innovation on Disability and Rehabilitation Research (CINDRR) at the Tampa VA Hospital, Tampa, FL in collaboration with the VA HSR&D Service and partnership with the University of South Florida.

Postdoctoral Disability Research Training Program on Veterans with Disabilities

The National Institute on Disability, Independent Living, and Rehabilitation Research (NIDILRR) has provided funding to the Occupational Therapy Department at the University of Florida for postdoctoral opportunities focused on community living and participation for Veterans with disabilities. This award is in partnership with the Veterans Health Administration (VHA) Center of Innovation for Disability and Rehabilitation Research where fellows will be hosted. Three openings are currently available.

Postdoctoral Fellow Opportunity - University of Florida

The Dept. of OT invites applications for a full-time postdoctoral fellow under the mentorship of Dr. Sherrilene Classen in multidisciplinary research with a focus on driving rehabilitation science. Applicants must have a PhD in Rehabilitation Science or a closely-related field and are preferably licensed/license-eligible as an occupational therapist
Postdoctoral Fellowship in Multiple Sclerosis Research - Johns Hopkins University

The overall goals of this two-year postdoctoral research Fellowship funded by the National MS Society and Johns Hopkins Dept. of Physical Medicine and Rehabilitation are to:

1. Train clinician-scientists who will go on to be leaders in the advancement of rehabilitative strategies for people with MS.
2. Equip trainees with the skills needed to become independent, grant-funded investigators.

This program will provide clinical and research training in MS-related rehabilitation science.

For more information, contact Meghan Beier.

Conferences and Calls for Papers

2018 Institute on Health Services Research (HSR) – Quality Strategies in Rehabilitation: Advancing Health Services Research (April 4, 2018 (evening), April 5, 2018 (full day), Boston, Massachusetts)

Co-sponsored by CoHSTAR & the Center for Large Data Research & Data Sharing in Rehabilitation (CLDR).

This year’s HSR Institute will focus on research strategies to evaluate and improve quality of care. Attendees will learn about quality initiatives from nationally known thought leaders, deepen their understanding of health services research methods, and develop relationships both within and across disciplinary boundaries.

The Fourth Annual UIC Occupational Therapy Scholarship of Practice Day and 75th Anniversary Reception (April 6, 2018, Chicago, Illinois)

The latest OT theory, education and research will be discussed.

2nd National Knowledge Translation Conference in Rehabilitation (April 19-20, 2018, Montreal, Quebec)

This conference is relevant for researchers, professional and graduate students, health care professionals, clinicial managers/administrators, and decision-makers interested in knowledge translation.

AOTA Annual Conference & Expo (April 19-22, 2018, Salt Lake City, Utah)

Pre-conference institutes on April 18.

Registration and hotel reservations are now open.

WFOT Congress 2018 (May 21-25, 2018, Cape Town, South Africa)

The theme is 'Connected in diversity: positioned for impact', and the program will feature world leading experts, unique social events, and an exhibition.

Occupational Therapy Summit of Scholars – Expanding our Research Outcomes through Team Science (June 8-9, 2018, Kansas City, Missouri)

This invited Summit is co-hosted by the University of Kansas Medical Center and the University of Missouri and will provide a forum for scholars to share their research, develop networks across academic institutions, mentor emerging scientists who have post-doctoral fellowships, career development awards, or newly funded grants, advance science in occupational therapy by strengthening approaches to the study of occupation, participation, and health, and generate dialogue about funding opportunities and strategies to enhance success. A new track will be added this year: Large Data sponsored by the University of Texas Medical Branch Center for Large Data Research & Data Sharing in Rehabilitation. Kenneth Ottenbacher, PhD, OTR and his team mentor scientists submitting abstracts with a large data focus.

4th Canadian Fall Prevention Conference (June 11-12, 2018, St. John's, Newfoundland)

This conference will address fall or injury prevention for seniors, patient populations, and the general public, for research studies or practice/community initiatives.

4th Federal Interagency Conference on TBI ( June 11 - 13, 2018, Washington, DC)

The Interagency Meeting will have innovative programming and educational offerings giving you access to research, clinical programming, advocacy, policy and consumer concerns. Meet the thought-Leaders in TBI rehab from all over the U.S. and around the world.

Call for Late-Breaking Oral Papers and Posters: Jan 22 - March 31, 2018
12th World Congress of the International Society of Physical and Rehabilitation Medicine (ISPRM 2018) (July 8-12, 2018, Paris, France)
Top rehabilitation specialists from across the world will present the latest research and cutting edge techniques. The scientific program will include hands-on workshops, lively debates and more.

Healthy Aging Summit (July 16-17, 2018, Washington, DC)
The 2018 Healthy Aging Summit seeks broad participation by subject matter experts from diverse disciplines, provider types, and the public-private sectors. We want to learn from subject matter experts first-hand what is working across important areas such as healthcare, transportation, built environment, housing, law and policy, and faith-based partnerships.

Progress in Clinical Motor Control: Neurorehabilitation (July 23-25, 2018, State College, Pennsylvania)
The first conference on Progress in Clinical Motor Control: Neurorehabilitation will bring together leading scientists in the basic, engineering, and clinical sciences to exchange and share research and development in cutting edge science and technology applied to neurorehabilitation. This conference will provide a premier interdisciplinary platform for researchers, practitioners and educators to hear from top scholars on recent research and technological innovations, as well as practical challenges in integrating these advances into the field of neurorehabilitation.

ACRM Annual Conference (September 30-October 3, 2018, Dallas, Texas)
Conference theme is Progress in Rehabilitation Research. Preconference will be September 28-30, 2018 Learn about cutting-edge research and its translation into clinical practice to improve the quality of life experienced by people with disabilities and to improve their own lives – improve their own well-being and connect with like-minded professionals.

Grants and Funding Opportunities

Student Research Grant: The Society for the Study of Occupation:USA
SSO:USA invites students to submit research grant proposals with direct relevance to at least one of the society’s priorities. All applicants must be members in good standing of SSO: USA. Funded research must be completed within two years of the award. Questions? Contact Kendra Heatwole Shank, Chair of the Student Research Grant subcommittee, at kheatwoleshank@towson.edu. Proposals are due April 30, 2018.

US Department of Health and Human Services Grants
Search the grants.gov website for up to date information on grants that are available. Learn about how to apply for NIH grants.

News and Other Resources

Veterans Disability & Rehabilitation Research Channel
The Veterans Disability and Rehabilitation Research Channel offers international researchers and practitioners a dedicated space to share and read state-of-the-art research, information and resources to assist Veterans with chronic illness and disabilities worldwide.
